

Safety Policy

“We will maintain a safety and health program conforming to the best practices of organizations of this type. To be successful, such a program must embody proper attitudes toward injury and illness prevention on the part of supervisors and employees. It also requires cooperation in all safety and health matters, not only between supervisor and employee, but also between each employee and his/her co-workers. Only through such a cooperative effort can a safety program in the best interest of all be established and preserved.”

“We recognize that the responsibilities for safety and health are shared:

- Dutek Senior Management accepts the responsibilities for leadership of the safety and health program, for its effectiveness and improvement, and for providing the safeguards required to ensure safe conditions.***
- Supervisors are responsible for developing proper attitude toward safety and health in themselves and in those they supervise, and for ensuring that all operations are performed with the utmost regard for the safety and health of all personnel involved, including themselves.***
- Employees are responsible for wholehearted, genuine operation of all aspects of the safety and health program-including compliance with all rules and regulations and for continuously practicing safety while performing their duties.”***
